Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the present invention pertains to a device that specifically requires a novelty hat in the shape of an automobile comprising a separate substantially planar top, bottom, and body member wherein the top member is connectable by fastener means to the body member and the body member is connectable by fastener means to the bottom member. It is the examiner's opinion that the art of record considered as a whole, alone, or in combination, neither anticipates nor renders obvious a novelty hat exhibiting these qualities as well as having a body member which includes a hood portion, a trunk portion, and a first and second door side portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
